

BMR - 001

Basic Model Helium Gas Balloon Regulators

Inflators, Helium Gas Balloon Regulators are durable easy-to-install and easy-to-use. Rubber tilt valve is simple to replace if it gets damaged due to excessive wear and tear. Models are available with or without content gauges.

BMR - 002

Applications :

- Made from Extruded Brass
- Precision Machined
- Light weight Piston Design
- Maximum inlet pressure is 3000 PSI
- Delivery pressure 50-65 PSI
- Easy to read Cylinder Content gauge [BMR - 002 Model]
- Easy to use - wide models / ranges available for selection
- Inlet connection 5/8" BSP RH Nut & Bull Nose Nipple
- Outlet connection 3/8" BSP M DIN & other standards, on request
